Annual Maintenance (bug fixes, minor updates)	15% of project cost /yr	18% of project cost /yr	20% of project cost /yr

**Free hosting applies to static/JAMstack sites on a Netlify/Vercel-style CDN with free SSL, within fair-usage bandwidth limits. Dynamic sites needing a database or backend move to the paid hosting tiers.*

General Terms

- All prices are exclusive of GST/applicable taxes unless stated otherwise.
- Payment terms: 50% advance to start the project, 50% on delivery before final handover/publishing.
- Delivery timeline depends on scope (Basic: 5–10 days, Standard: 2–4 weeks, Premium: 4–8 weeks) — an exact timeline is shared at quotation stage.
- Domain and third-party costs (Apple Developer account, SMS/payment gateway fees, premium plugins) are billed at actual cost, not included in the development price.
- Free hosting/support periods apply only during the offer duration mentioned per plan; renewal charges apply from year 2 onward.
- Prices are indicative starting rates for standard scope; the final quote may vary based on exact requirements, timeline and revisions requested.
- Source code handover is included in Standard & Premium plans; the Basic plan includes the working deliverable, with source code available on request.

Ready to start your project?
Prices are indicative; an exact quote follows a short discovery call.
